RE: Follow Up to March 18, 2008 Hazardous Waste Compliance Inspection  
EPA ID# KSD 007 246 846

Dear Mr. Nobel:

Thank you for Mr. Grater's April 3, 2008 letter of response to the one violation and the three comments noted during my routine hazardous waste compliance inspection. Based upon the information submitted, Violation #1: Concrete berm around drums was broken in the secondary containment area, Building C, and the three comments have been addressed.

Please be aware that a report of this inspection is submitted to the Bureau of Waste Management (BWM) in Topeka for review. Each report is reviewed and an evaluation is made to determine if additional enforcement is warranted. A penalty may be issued by BWM for violations identified during this inspection.

Your cooperation with the hazardous and solid waste management program is appreciated. If you have any questions, please call me at 785-625-5663 extension 233.

Sincerely,

Karen S. Schmidt, B.S., M.S. Geology  
Bureau of Environmental Field Services
